

Come, Let Mother See!

When the child droops, won't play or is restless, pale and grumpy, look to see if the tongue is white, the breath feverish, the stomach sour. Then hurry, mother, but don't worry! Give Cascarets, the harmless candy cathartic. Children take Cascarets without coaxing—only 10 cents a box!

TO MOTHERS! Nothing else "works" the nasty bile, the sour fermentations and constipation so gently but so thoroughly from the little stomach, liver and bowels like harmless Cascarets. While children usually fight against laxatives and cathartics, they gladly eat a candy Cascaret. Cascarets never gripe the bowels, never sicken, never disappoint the worried mother. Each 10 cent box of Cascarets contains directions for dose for children aged one year old and upwards.

CARRIES FLAT RATE FIGHT TO WASHINGTON

The Southern Hardwood Traffic association, representing interests shipping more than 25,000 cars of hardwood lumber and forest products annually, is taking its fight for flat rates on logs, bolts and billets into Memphis and other milling points direct to the railroad administration at Washington.

It is seeking flat rates for two distinct purposes: One is to prevent the necessity of tying up in the hands of the railroads large sums of money in freight bills held by the carriers until finished products manufactured from these rough materials have been shipped out.

The other is to enable them to ship finished products over any line without regard to the route originating the shipment of logs, bolts and billets.

Six prominent hardwood lumber manufacturers identified with the association will leave for Washington Saturday evening to participate in a conference with the railroad administration. They are: James E. Stark, president, and W. H. Russe, Memphis; C. L. Harrison, Cape Girardeau, Mo.; Fred Brenner, Alexandria, La.; W. Brown Morgan, Pine Bluff, Ark.; and C. H. Sherrill, Maryville, La.

W. H. Townsend, secretary-manager of the association, left for Washington Friday evening to take part in conference preliminary to the main one.

Following completion of their work in Washington, these gentlemen will attend the annual meeting of the Southern Hardwood Traffic association at Atlantic City, Dec. 4-6, where they will be joined by other representative lumber interests.

WILL HELP RETURNED SOLDIERS FIND WORK

Memphis, Shelby county and the Sixth industrial zone are getting ready for the return of their soldiers. Release of thousands of men from the army camps will tax the ingenuity of the various labor offices in all sections of the country and the department of labor has asked that special preparation be made for finding positions for men returning.

Edward C. Allen, chairman of the community labor board, has called a meeting for Monday of labor representatives in the six counties of the zone, together with employers. The meeting probably will be held at the Chamber of Commerce.

The employment bureau asks that all employers submit a list of positions available for soldiers and sailors upon their return to their homes.

Several important questions will be laid before the class, one especially as to whether the class ought to have a Christmas tree for the deaf.

NEGRO TAKEN BY MOB THROUGH RUSS, HANGED

FREDERICKSBURG, Va., Nov. 30.—Allie Thompson, a negro, charged with assault upon a white woman, was taken from jail by mob and hanged in Culpepper county Sunday night. It became known here today.

Two men went to the jail with a man bound in ropes. The jailers believed their story that they had a prisoner and opened the jail door. Fifteen masked men stepped inside, overpowered the jailers and quietly took the negro from a cell. At daybreak the body of the negro was found hanging from a tree three miles from town. The identity of the mob is unknown.

FRISCO LABOR COUNCIL RAPS MOONEY ACTION

SAN FRANCISCO, Nov. 30.—The San Francisco Labor council, after an executive session early today, issued a statement deploring the action of Gov. Wm. D. Stephens in commuting to life imprisonment the sentence of Thomas J. Mooney, condemned to death for murder in connection with the Preparedness day bomb explosion, when 10 persons were killed here in July, 1916.

The labor council's statement declared the governor had "straddled the fence," and Mooney should have been granted a full pardon or else allowed to hang.

Good Will Given a New Impetus

A statement of Dodge Brothers war activities is due the owners of their cars.

Dodge Brothers refrained, during the progress of the war, from any reference to the performance of the car in Government service.

It seems proper now, however, to disclose the facts, because they are creditable facts—intensifying that good will which owners of Dodge Brothers cars have always manifested.

Dodge Brothers car was the only one of its class approved and adopted by the War Department.

In a separate Ordnance Works, built especially for the purpose, costing millions of dollars and employing thousands of their skilled motor workmen, Dodge Brothers undertook an important duty designated by the War Department.

Without the aid of their great motor organization, Dodge Brothers could not have fulfilled the heavy obligation which they were asked to assume by the Ordnance Department.

The other service required of Dodge Brothers motor works, by the Government, was to continue

to furnish their cars as they were needed.

They were furnished, not in hundreds, but in thousands—both for the training camps here, and for service in Belgium, France and Italy.

The record of those thousands of camp and army cars is one in which any owner may feel the utmost pride and satisfaction.

Their performance justified the compliment implied in their selection by the Government.

The great works in which nearly three hundred thousand of their cars have been produced in the past four years furnished a vast store-house of human energy and equipment for the ordnance work.

Naturally, it will take time to adjust the motor works to its full accustomed activity.

Gradually Dodge Brothers will resume the grateful task of continuing to deserve the good will of America—and indeed of the whole world.

Dodge Brothers consider good will their most valuable possession.

They will never knowingly do anything to lessen it.
